# MACDONALD COLLEGE ANNUAL

*All hail, Macdonald! We sing to thee.*

*Fairest of colleges: Give her three times three!*

*Long may we cherish her. Faithful we'll be.*

*Macdonald's the College for you and me.*

*Strong as the Ottawa past thee doth flow,*

*Forth from thy portals shall thy children go*

*Never forgetting thee or thy good fame.*

*Macdonald, we'll conquer by force of thy name.*

*All hail Macdonald! Though gone from thee,*

*Sweetest of memories always thou wilt be.*

*Thou gav'st us knowledge, courage, and friends,*

*And though we have left thee thy gift never ends.*

## 1932-33 ||||

DR. G. S. H. BARTON

*Deputy Minister of Agriculture*

A REVIEW of the accomplishment of Dr. H. Barton in a quarter century spent at Macdonald College in the service of the University appears appropriate in the present Annual in view of his resignation of the Deanship of the Faculty of Agriculture in November, 1932, to accept appointment to the office of Dominion Deputy Minister of Agriculture.

Coming to Macdonald at its opening in 1907, immediately after his graduation in the Ontario Agricultural College, Mr. Barton received rapid promotion to the ranks of Lecturer and Professor of Animal Husbandry.

To the burden of administration of the Department, with its valuable equipment of flocks and herds, there was presently added the management of the college farm. In this work he continued with such success that in 1925 he was appointed Dean of the Faculty.

Professor Barton enjoyed the confidence of his professional colleagues. The Canadian Society of Technical Agriculturists elected him as its second president, re-elected him for a second term and has since retained him upon its Executive Council. In the councils of the Society his opinions are always influential. It was on the occasion of a convention of the C.S.T.A. that the honorary degree of D.Sc.A., was conferred upon him by Laval University.

Dr. Barton's native ability, his thorough knowledge of practical agriculture, his appreciation of scientific research, his broad acquaintance with farmers, his high standing amongst technical agriculturists, and his experience and skill in administration render him peculiarly well fitted for the responsible position to which he has been appointed at Ottawa. In undertaking his new duties, he may rest assured of cordial co-operation from his old associates in Macdonald College and of the best wishes of all his former colleagues in the University.

J. F. SNELL,

*Acting Dean of Agriculture*

## STUDENTS' COUNCIL

THE end of a college year will always afford a good opportunity for mental stock-taking and for a general survey. The past has not yet become history, and the changes that the session has seen introduced can be viewed in their proper perspective. The cloak of romanticism that veils any new endeavour is more easily pulled aside before the dust of history settles on it.

The innovations of the past year have been many and varied. The outstanding is undoubtedly in connection with the College Magazine. Instead of three issues of rather doubtful force, THE FAULT-YE TIMES has filled a long-felt need for an organ to vent college approval or disapproval at the time—and not when the cause has been forgotten. This ANNUAL—the first of its kind—is to be a résumé of college activity—collecting up all of note and serving as a perpetual reminder.

Another change that has probably escaped the attention of the students as a whole is the formation of a Finance Committee. Originally this committee was formed by the Students' Council to meet the fresh financial obligations caused by the formation of the College paper. The value of this committee was soon apparent, and it has since become a permanent fixture. The representation of all the Societies on a single committee enables the Council to co-ordinate the finances of the societies far more easily than was formerly possible. The power of the purse-bearer was never greater than in these times.

Yet, however stringent the times, the enrollment is on the upgrade. Indeed it may be safely said that the depression has not only increased the enrollment but has also made students realize their own talents and forced them to put them to the test.

We have had a more continuous set of Wednesday night performances in the Assembly Hall than ever before in the past, and by far the greatest proportion of these have been student efforts. Nor is this the only field in which the students have laboured successfully.

The formal dances have been very well attended, and the high measure of success attained in the past has, we can confidently affirm, been well maintained. Lack of ideas for decorative schemes has yet to see us forced back on old ideas. The new decorative schemes for the second formal will be long remembered by those who attended. These dances afford the students one of their few opportunities to return the hospitality of the staff to them, and it is an opportunity that the Council intends to make full use of in the future.

The lack of continuity is often emphasised in student affairs and this must, by the very nature of things, be the case; especially here where the student population is a very floating one, and those taking a one year course far out-number those

remaining longer. We build more indirectly than directly for the future, so that the changes of this year will affect the next year's student body only in so far as they themselves are definitely interested in them. The lack of continuity can be overcome only by those that are in a position of responsibility giving a definite lead. The public, in the case of entertainments, is not nearly so difficult to please as is generally supposed; and most are ready to follow a definite lead.

In this connection the part played by the Council is of considerable interest, illustrating the value of having a reserve of strength to fall back on. The organisers of the formal dances are chosen by the Council, as are those for the Saturday night dances. Every society is ultimately responsible to the Council for its actions in the case of these being called to question. The part played by the Council is not altogether a passive one as is so often stated.

It is rather like a big railway junction affording the means for intercommunication between our own societies, between these societies and the staff, more particularly through our Honorary Officers, and with the outside world. The value to the College of being a member of the Federation of Canadian Universities is not fully utilised. The Exchange Scholarship scheme has not yet, since its inception some four or five years ago, met with the support that it deserves. Although perhaps it is not well adapted to our needs it is certainly worth a trial.

The question of contact between universities is one that is of the greatest importance. Because there are many ideas lost to us through being in a rather isolated position with respect to the rest of the University, any attempt at co-ordination leading to an interchange of views is much to be welcomed. In the past, the Literary and Debating Society has taken on the responsibility of inviting speakers to address the students on a variety of topics. This is a sideline that might well be taken on by the Council in the future, for it is their business to keep the students in touch with the outside world.

The future position of this College with respect to education in Canada is undoubtedly assured. The value of a liberal education is of undoubted benefit to the many coming from the old Country, for not only does it aid in finding one's bearing but also is helpful in understanding the other man's point of view. The craze for specialisation has robbed the world of a mutual basis for a sympathetic understanding, and has consequently limited contacts that are of benefit to both parties. These are danger that besets us here in a smaller but no less important way, and we sincerely trust the Council of the future will do all in its power to broaden the already wide field of contacts that the College has established.

LITERARY AND DEBATING SOCIETY

IN reviewing the work of any College Society, due consideration must be made of the purposes for which such an organisation functions before any judgment can be passed on the success of its efforts. The constitution of the Literary and Debating Society specifically states that the object of the Society is to further the literary, debating and dramatic abilities of its members. Owing to the failure of at least one other organisation, several other "duties" have been taken over by the "Lit. and Deb.," so that it is common opinion that our society is directly answerable for these as well. It thus happens that we have been responsible for staging musical evenings and concerts, and though we have been pleased to undertake these affairs, we still feel that they lie outside our province, and that in view of the aforementioned "objects" there should be another society devoted entirely to the task of catering to the musical tastes of the students.

Under the old system of Assembly Hall debates, the debating was confined to relatively few students. With the formation this year of the Debating Union an innovation was introduced.

The meetings of this body were held in a room in the Main Building. This room was rather

limited in capacity, but the initial speakers were thus brought more into the body of the house. The speaking time of those opening the debates was also curtailed, thus leaving more time for the motion to be thrown open to the house.

The introduction of the One Act play Contest was another new feature. This filled a real gap in the dramatic landscape. In former years play acting was confined to a few members of the "Player's Club." The Public Speaking and Elocutionary Contests were suspended, and their place was taken by the new contest. Ten teams were entered from the various classes of the College. A great amount of enthusiasm was aroused, among both players and audiences.

Four Wednesday evenings were devoted to this contest, and it is to be hoped that it will be continued in the future.

We are pleased to report that under the guidance of Magnus Pyke a Play Reading Circle was started for those interested in the Literature of Dramatics. Those who attended regularly were for the most part keen and active members. It will thus be seen that the new societies were in direct relation to the "three graces"—literature, debating and dramatics.

## Play Contest

The Play Contest was staged on four Wednesday evenings in October and November. The following teams were entered:—

Teachers, Section A.	Grandma pulls the Strings
Teachers, Section B.	The Dweller in the Darkness
Teachers, Section C.	The Man in the Bowler Hat
Senior Agr. and B.H.S.	The Bishop's Candlesticks
Junior Agr. and B.H.S.	Barbara's Wedding
Sophomores Agr. and B.H.S.	The House with the
	Twisty Windows
Freshmen Agr. and B.H.S.	The Bathroom Door
First Year Diploma and Junior Ads.	Kidnapping Betty
Second Year Dips and Senior Ads.	Poison, Passion and
	Petrification
The Homemakers.	"A Burlesque"
Final Result 1st Prize.	The Seniors
2nd Prize.	Teachers, Section A
3rd Prize.	(Diploma I and Ads.
	Diploma II and Ads.

## Debating

The first debate of the season saw the visit of the British University Debaters, Mr. Hector McNeil of Glasgow University and Mr. Ivor Jones of the University of Wales. The visitors upheld the motion that "Economic Nationalism is the Greatest Danger Facing the World." They were opposed by Monro and Pyke. It was unfortunate that, owing to the different conceptions of the method of approaching such a question held by the two sides, the motion was never debated at all. We are pleased to say, however, that the decision was given to our guests.

## Ross-Robertson Shield

Seniors affirmative, Juniors negative: "Resolved that it is Not in the Best Interests of Ireland to Withdraw from the British Empire." This debate was won by the Juniors.

Freshmen affirmative, Sophomores negative: "Resolved that this House Deplores the Entrance of Women into Business." This debate was held before the Union as an experiment and as such was thought to be successful. The decision was awarded to the Freshmen.

The final debate was held in the Assembly Hall. The Freshmen (Messrs. Walsh and Horsnell) upheld the motion that "The Back to the Land Movement Encouraged by the Quebec government does not Constitute a True Remedy for Unemployment." This was contested by the Juniors (Messrs. Moore and Harvey) and the decision was given to the negative.

## The Teachers-Science Debate

Amidst scenes of wild enthusiasm, in which the emotions of a large audience completely overcame all sense of decorum and restraint, the annual debate went to the Science girls on the negative side of the question, "Resolved that Restraint is the Source of all Evil."

## Plays

Apart from the Play Contest and the Green and Gold Revue, two evenings were devoted to plays. In December "Loyalties" was acted. Despite the ambitious nature of this attempt, the play was pronounced a distinct success, thus proving that

plays of the more serious type can be produced on the Assembly Hall platform.

At the end of March two short plays were produced. The first was a little sketch given by the Women's Union of Ste. Anne de Bellevue. This was followed by a one act "grotesquerie" given by the students, entitled "The Green Cockatoo." It was a very enjoyable evening for casts and audience alike.

## The Green and Gold Revue

This year's Revue was voted a great success, and our heartiest congratulations go to Pyke, the producer, and Miss Beddoe who did sterling work in training the chorus and dancing with them. Revue night is probably the most popular night in the year; it is looked forward to keenly, and, as the student body seems to be becoming more exacting each year, many thanks are due to all who took part for providing entertainment which was so favourably received. To mention everyone connected with the revue is, of course, impossible, and we hesitate to single out anyone from the actors, electricians, scene-shifters and "what have you's." You all did well, and we enjoyed it a lot.

## Concerts

Owing to the kindness of Messrs. Ogilvy's Limited we were privileged to hear the Russian Cathedral Quartet, which came out one evening in December. This was perhaps the greatest musical treat experienced during the session.

Several other concerts were held. On January 25th a very interesting recital of 17th Century Poetry, Music and Song was arranged by Mrs. Strathy. On March 22nd, the Wynne Instrumental Trio came out from Montreal to take the lead in a concert. The programme was made up by residents in Ste. Anne's, members of the staff and several students.

## Lectures

Dr. Thompson of McGill delivered a very interesting lecture on the "History of the Sailing Ships." He illustrated this with a number of excellent slides. On March 1st, Prof. Hodgins gave a most illuminating talk on "Some Canadian Humors." This lecture was greatly appreciated.

## The Mock Trial

Before dismissing the subject of the Lit and Deb's activities, mention should be made of the very celebrated case of Rex. vs. Fletcher. This constituted the first occasion on which a mock trial of this nature was held in the Assembly Hall, and the success of a novelty of this kind would warrant its repetition in some future year.

In conclusion, the executive of the Society wishes to thank most heartily all students, members of the staff and friends not directly connected with the College for the able and strenuous support they gave to the various items; a support which enabled the officers to carry out the projects which they undertook.

## THE MACDONALD COLLEGE ATHLETIC ASSOCIATION

President ..... J. R. McDONALD  
Vice-President ..... B. J. FINN

Treasurer ..... H. R. PARNELL  
Secretary ..... P. E. R. BOVELL

IT may be said, and with some truth, that "write-ups" never express what the writer really feels. We will allow this criticism to be levelled at us for we intend to record only that which will be of interest to posterity.

The Athletic Association can say that they have successfully, if not brilliantly, succeeded in running, with a very meagre allotment, the numerous sports with which, perhaps, we are blessed.

There have been bright spots this year—the rugby team beating their old rivals Medicine—the English rugby triumphing over McGill and Toronto—the soccer interfaculty championship retained—completion of a good hockey season—an enthusiastic and certainly highly successful entry of two teams in the Montreal Basketball League—also keen interest was taken in the various other activities in which healthy animals like to indulge.

Under ideal weather conditions during the latter part of October, the Track Meet was held and showed unusually close and keen competition. The

Teachers won the grand aggregate, breaking the record for the Relay in doing so.

We have also much pleasure in reporting a new field of success. There were five "Mac." representatives on the McGill Intermediate Track Team and between the five they were able to garner the creditable total of twenty-four points.

At the Swimming Meet, Agriculture '35 won the interclass aggregate, and Inniss, the individual aggregate.

Another sport in which marked strides have been made this year is Badminton, and a novel feature in this respect was the co-operation between the Men and the Women and between the two clubs and the Staff in "mixed matches."

It is a very interesting and pleasing fact that over 80% of the men in residence engaged themselves this past session in some team sport or other.

In closing we can boast that, as a college, we cater for the man of varied tastes in athletics—specialising in none: we yet see that everything is supported in no matter how small a degree.

## WOMEN'S ATHLETIC

Honorary President.....MISS HEATHCOTE  
President.....MARTHA ABRAM  
Treasurer.....

Vice-President.....ELENOR DUNN  
Secretary.....K. NEWSOME  
.....K. YOUNG

**T**HIS year considerable enthusiasm, which has been noticeably absent in the last few years, has been shown in Women's Athletics.

Due chiefly to the "vim, vigour and vitality" on the part of Homemakers and Junior Ads., Science, having long been dormant in the field of active sport, has shown itself quite capable of competing favourably with the hitherto victorious Teachers.

Managers are chosen at the beginning of the College term to arrange all schedules, games etc., for each sport, and the success or failure in each field is greatly dependent upon the capabilities of chosen managers.

Basketball has met with outstanding success, the girls having exhibited exceptional form and knowledge of the game. The formation of a House League at the beginning of the season has apparently stimulated the year's activities in this direction.

Badminton proved very popular early in the season. A ladder competition was drawn up with the Badminton Challenge Cup for individual competition as the goal.

A successful meet opened the swimming season which did not get well under way until the

beginning of the second term. But when monitors had been appointed, everyone had the opportunity of enjoying the tank each evening if desired.

Early in the fall season a baseball league was formed from the School for Teachers, several friendly games being played.

Hockey had a short life but a merry one, the season's schedule comprising one game when Teachers met Science on that most memorable occasion—the Ice Carnival.

Mention might be made of the track meet held last fall in conjunction with that of the men. Much skill in the more strenuous sports was observed among the girls. Science won by a small margin in aggregate points. The official meet will be held later on in the spring when the shield will be competed for.

A gym. demonstration of merit was held on the morning of March 18th. Teachers and Science vied with one another for the Dr. John L. Todd Gymnastic Shield donated for intersection gymnastic competition. Section A proved to be the winners.

The eight competitors from the School for Teachers in the individual competition for the Todd Gymnastic Medals showed exceptional skill in their drills and apparatus work.

**T**HAT the old College Magazine had not been fulfilling all the functions required of it has been felt for a long time at the College. A good deal is required of a college paper, if only one such paper exists. The chief limitation imposed on journalism at Macdonald is the small appropriation set apart for its support from student funds, and under the circumstances one could not hope to see one paper answering all the purposes that students are apt to find for it. It is hard to combine literary excellence and all the qualities of a real newspaper, especially where the type is confined to a small space. Finance, as with all student activities, is our bugarbear.

At a meeting of the Student Body at the beginning of the college year the suggestion was made that a weekly newspaper in conjunction with an Annual would be preferred to the old College Magazine and this, put in the form of a motion, received the unanimous support of the meeting, and the Failt-Ye Times officially came into being, as a newspaper to report current events, discuss current topics and aid where necessary in stimulating support for students' activities.

With such an innovation, form is much a matter of experiment, and certainly the Editorial Board of the paper experimented. Finally, in consideration of the limitation imposed on them, a fair degree of satisfaction was attained. The paper was divided into its several departments under Associate Editors and, in particular, a Sports Editor, while a Correspondence Column voiced the opinions where they existed of the Student Body in general.

The policy of succeeding years will prove whether or not the results of the efforts of the present Board are in the main acceptable. However, whatever the verdict of the future may be, the general opinion of all concerned seems to have been that the change has been an improvement. The staff of the paper have found in their duties a certain amount of invaluable experience as well as any amount of real pleasure; for the suffering of "press-nights," the late hours, the scratching for "copy," sufficient reward has been the sight of frowns, smiles, and interest in general, and, as was not the case with the old magazine, a ready co-operation on all sides.

## THE EDITORIAL BOARD OF THE ANNUAL

### *Editors*

STUART HEMSLEY

DAVID CLARK

DENIS HARVEY

### *Advertising Manager*

ROBERT MACDONALD

**T**HE EDITORS WISH TO TAKE THIS OPPORTUNITY OF RECORDING THEIR APPRECIATION OF THE HELP THEY HAVE RECEIVED, IN COMPILING THIS ANNUAL, FROM ALL THOSE SPIRITED PEOPLE WHO SO PROMPTLY RESPONDED TO THE CALL FOR MATERIAL. SUCH A READY RESPONSE WAS AN EVIDENCE OF REAL INTEREST IN THE PRODUCTION OF A BOOK THAT REQUIRES A GREAT DEAL OF WORK AND PLANNING. WE FOUND IT MOST STIMULATING.

DR. J. F. SNELL

# AGRICULTURE

*Cultivate loyalty to truth,  
to Macdonald and to McGill.*

*J. A. Snell*

## CAMERON, DONALD

Born November 6, 1908, Forfarshire, Scotland. Educated Edinburgh Academy, Macdonald College 1928. "Pooped" by diploma activities and entered degree course 1930. Clubs: Wednesday night and Einstein. Activities: English Rugger 1928-'33, etc. Favourite expression: Why in hell come to me about it? Option: Parasitology. Hobby: Yachting.

## CANNON, HUGH BISHOP

Born Nov. 27, 1910, at Ottawa. Graduated from Glebe Collegiate, spent a year at Varsity, then to Macdonald in 1929 for two years. Activities: College rugby teams 1929-'30-'31, Secretary of Men's Athletic 1930-'31, member of House Committee 1930-'31. Hobby: Tanking on general principles. Favourite expression: Horse feathers! Option: Chemistry.

## HEMSLEY, STUART DAVIDSON

Born 1905, Kent, England. Educated Dartford Grammar School and by varied experience. Canada 1928. All possible (and impossible) clubs: G. & G. 1930; Editor, Mag. 1930-'31; Debating (Ha! Ha!); Rugger, etc.; Pres. of the Council 1932. Option: Parasitology. Favourite expression: I start work next Monday.

## LEEFE, JOHN SPENCER

Hatched January 19, 1913, in Jamaica, B.W.I. First studied in New York City. Entered College at Truro in 1929. Gave Mac the once over in 1931, but decided to stay till 1933,—after all, it is B-E-S-T. Activities: Economics Club 1931-'32. Hobby: Smoking. Pet aversion: Non-smokers. Favourite expression: Got a cigarette?

## AGRICULTURE

## FORSYTH, JOHN LESLIE

Born at Amherst, N.S., March 25, 1908. Educated at Academy there, then decided to study agriculture. Spent two years at Nova Scotia Agriculture College. He, eager to further his education along this line, joined Ag '33. A member of hockey team 1932-'33. Pres. of Men's Badminton Club. Option: Agronomy. Favourite expression: Oh hell, no!

## GRELL, JOHN HENRY CARLTON

Born Dec. 20, 1909, Dominica, B.W.I. Attended the Antigua and Dominica Grammar Schools, and Imperial College, Trinidad. Entered Mac '29. Studied Chemistry. Activities: Athletic and House Games; Mgr. Inter-Class Games '32-'33; Winner Conklin Trophy '32; Rugby '30-'32; Basketball '30-'33; Soccer '31; All Montreal Cricket '32. Hobby: Piano. Favourite expression: What's the belly-ache now!

## LEUNG, FREDERICK ARTHUR EDWARD

First saw daylight on Sept. 25, 1911, at Berlin, Germany. Early education at various schools in Europe and subsequently at Dulwich College, Eng. Migrated to Canada in 1929, managed to pass the Immigration Authorities, and so became a farmer. Hobby: Playing Casino. Favourite expression: Variety is the spice of life. Option: Horticulture. "A rolling stone gathers no moss."

## MCDONALD, JOHN ROBERTS

Born September 11, 1911, at Ottawa, and after sundry primary education spent as little time as possible at Glebe Collegiate, graduating in 1929. Hurried to receive the "Mac" initiation in the same year. Activities: President of Men's Athletic Association 1932-'33; Captain Macdonald Rugby Team 1931-'32; Basketball Captain 1931. Weaknesses: Box cars and bath tubs.

**MONRO,**

**HECTOR ALEXANDER UROUHART**

Born 1906. Educated Epsom College, England, 1915-1924. Crashed at Macdonald 1928. Entered B.S.A. Course 1929. Class President 1929-'33. Magazine Board 1930-'32. Rugger Captain 1931-'32. President Literary and Debating Society 1932-'33. Inter-collegiate Debating Team 1932. Option: Entomology. Clubs: Debating and Players. Hobby: Running after things. Favourite expression: Good work, lads.

**MURCHISON,**

**MALCOLM RODERICK**

Born December 29, 1904, at Prince Edward Island. Educated at Prince of Wales College. Parastized Queen's in 1929 and McGill in 1930, but choose Macdonald as his 'Definitive host.' Option Parasitology.

"The moving finger writes, and having writ, moves on."

**PYKE,**

**MAGNUS ALFRED**

First cast a deprecating look at the world in 1908 in London, Eng. Assimilated knowledge rapidly at St. Paul's, Macdonald Diploma 1929 and Chemistry Optional 1933. Literary: Author of "Go West Young Man." Activities: N.F.C.U.S. Western Tour Debater 1930; Inter-collegiate Debater 1931; Play Manager 1931; G. and G. Manager 1933; Pet aversion: Learning to be sociable. Favourite occupation: Candid criticism.

**SAVILLE,**

**DOUGLAS BARTON OSBORNE**

Born Dublin, 1909. Early years in East Africa. Educated Weymouth College, England. Came to Canada 1928 and awoke from Diploma Course to take degree. Clubs: Scene-Shifters', Wednesday Night and Einstein. Activities: Rugger, Swimming. Option: Plant pathology. Favourite expression: NOT to-night, Dave! . . . Oh, all right.

## AGRICULTURE

**PARNELL,**

**HOWARD ROBERT**

Born September 12, 1909, at Lennoxville, Quebec. Attended Lennoxville and Ascot High Schools. Entered Macdonald 1928; waited for Agriculture 1933. Activities: Secretary, Athletic Association 1931-'32; Treasurer: 1932-'33; Hockey Manager 1931-'33; College Rugby Team 1928-'33. Hobby: Judging (?) Option: Animal Husbandry.

**PRICE,**

**EDGAR**

Born Fleetwood, England, 1910. Improved Monmouth School, Canada 1928. One year with Diplomas, then took up Degree and purer sciences. Activities: Debating on and off stage. Rugby, Rugger, etc.; Capt. Rugger 1929; Athletic Committee 1928-'30; Barton Athletic Trophy 1929. Longworth Memorial Prize 1931. Annual Board 1932. Clubs: Scene-Shifters, Wednesday-night, Einstein. Hobby: Wine and women—but not song.

**SMITH,**

**JOHN EDMUND CHARLES**

Born March 19, 1907, at Lower Shimimicas, N.S. Educated locally, attended Nova Scotia Agricultural College, Truro. Joined class 1933 at Macdonald. Option: Economics and Animal Husbandry; President, Macdonald Economics Club 1932-'33. Hobby: Radio. Favourite expression: Search me.

**TAYLOR,**

**CHARLES BINGHAM**

Money: Treasurer of Divers "G. & G's," Magazine Board, The Students' Council. Movement: Rugby 1931-'32. To him alone Macdonald owes a twice-held soccer crown. Mind: His A.B.C. in Sheffield, Eng.; McGill Diploma Agriculture 1929; Degree Chem. - Bact. Matter: Born on Nov. 24, 1908, England. Motto: My mind's my master. "A primrose by the river's brim. . . ."

**THATCHER,  
FREDERICK SIDNEY**

Born Feb. 12, 1910, at Dovercourt, Essex, England. Educated Harwich School. One year Actuarial Head Office before Canada and Macdonald called in 1928. On year Diploma Course, then degree. Class Secretary-Treasurer four years. Debating 1932-'33; Soccer and Rugby Teams. Hobby: Getting outdoors. Favourite expression: Oh, good stuff! Option: Plant Pathology.

**AGRICULTURE**

**WHITE-STEVENS,  
ROBERT HENRY (BOB)**

Born June 3, 1912. Educated at Herne Bay College, West Buckland and Berkhamsted Schools in England. Canada and Macdonald in 1929. Activities: Class Debating Team 1929-'30-'32-'33. Class Track Team 1929-'30-'31-'32. Chairman Dance Committee 1931-'32-'33. Hobby: Collecting low-brow gramophone records. Favourite expression: I must make a note of that.

DIPLOMA '33

## DIPLOMA '33

**W**HEN we assembled in the Autumn for our second year, prospects did not seem very bright. Our numbers were somewhat reduced; some of our leading lights had gone; and that fact, combined with the past year's activities of the Powers That Be in curtailing our athletic privileges, did not promise well for our giving demonstrations of exceptional merit in the realm of indoor sports. But we determined to make up for lost time. Unfortunately we never did quite catch up with contemporary classes, but when we found our stride we accelerated rapidly, and, by the end of our career, could proceed at a merry enough clip at any game anyone might suggest at any time of the day or night.

We had hoped that the athletic Track Meet would be postponed until our return to College, but we were disappointed. The only thing left for us to do was to give an indication of what we might have done. The opportunity came with the cross country run. With four representatives in the first six places we were satisfied.

We seem to have started this write-up on an athletic note, so we had better continue with the

same trumpet and crash out a final Badminton blast: Phillips won the singles, and, with Arnott, brought the doubles home too.

The Play Contest gave us lots of fun and the Senior Ads for partners. They, of course, made the production the success it was, and enabled us to be, from varied accounts, as Poisonous, Passionate, and Petrified as .B.S. could wish, and to rank third equal with Diploma '34 and the Junior Ads. in the competition.

Then Doig and Berry won the Debate with Dip '34; and later on the judgment of a larger part of the class was put to the test and declared not wanting when our Animal Husbandry option won the judging contest at the Stock show.

Our activities during our stay at the College have been in many fields. Some we cropped too closely, and took the consequences; others we enjoyed to the full, with no bad effects; some we just nibbled at, but got the taste; none we voluntarily left alone. We have had a most enjoyable and profitable stay, and made many charming associations. We leave, and take with us the very happiest of memories.

**T**HE EDITORS APOLOGIZE FOR THE OMISSION OF DIPLOMA '34 FROM THIS ANNUAL. YOU GOT AWAY FROM US, BOYS, BEFORE WE COULD GET AT YOU!

### CLARK, DAVID

Arrived Edinburgh, Scotland in 1906. Edinburgh Institution School 1912-25. Mac. 1930. Obtained diploma in 1932. Activities: Class Pres. '30-'33; House Ctee. '31-'32; Class Debate '32; Rugger '31-'33; Failt-Ye Times; Annual Board. Hobby: Psychological experiments. Clubs: Wednesday Night, Amami, Einstein etc. etc. Favourite Expression: Why worry! Option: Horticulture.

## THIRD YEAR DIPLOMA

## THIRD YEAR DIPLOMA

### HALL, JAMES BARCLAY

Born 1912. St. Rose, Que. Educated St. Joseph's Academy, London Eng.; Mac 1930. Obtained diploma 1932. Activities: Rugger '32-'33; Wrestling '32. Hobby: Keeping fit. Favourite expression: Oh, Christmas! Option: Horticulture.

## BANFILL,

### ALICE GERTRUDE

Born May 4, 1911, at East Angus, Que. Educated at East Angus High School, and from there wended her way to McGill with scholarships. After one year at R.V.C., domestic inclinations led her to "Mac" in '30. Activities: Class Pres '30-'31. Vice-President of Students' Council '32-'33. Pet aversion: Gum. Hobby: Foyer Club. Favourite expression: I know, but...

## McEWEN,

### RUTH ELIZABETH

Born at Huntingdon, Que., March 31, 1911. Educated at Huntingdon Academy. In 1929 went to R.V.C., and then to "Mac." Hobby: Eating. Pet aversion: Cats. Favourite expression: ...or something.

"The deep of night is crept upon our talk."—Shakespeare.

## BREWER,

### HELEN BEATRICE

First saw the light of day, March 16, 1912, at Fredericton, N.B. Early education at Fredericton High School. Entered college life at U. N. B., with a scholarship. Came to "Mac" in 1930 for that finishing touch—Household Science. Hobby: Singing and dancing. Pet aversion: William! Favourite expression: Yes, that's right, too.

## SKELTON,

### WINIFRED MURIEL

Born July 14, 1912, at Montreal. Educated at several schools, matriculating at Montreal West High. Continued at R.V.C. and "Mac." Activities: Class artist. Pet aversion: Parsnips. Favourite expression: It'll be just too bad.

## HOUSEHOLD SCIENCE

## IRVINE,

### ESTHER HUTCHINSON

Born August 6, 1912, at Sherbrooke, Que. Received early education at Stanstead College and matriculated from St. Lambert High School. Entered McGill in 1928 and thence to "Mac" in 1930, where she led both Sophomore and Junior Classes. Activities: Class President 1931, Class Secretary 1932-'33. Hobby: Tennis. Pet aversion: Waiting. Favourite expression: Hurry up, you kids.

## WEEKS,

### ELLEN MILNE

Born December 8, 1911, in Ottawa, Ont. Educated at Ottawa Normal Model School and Glebe Collegiate. Received Honour Matriculation at the latter and then migrated to "Mac." Activities: Class President in 1932-'33. President of House Committee in 1932. Vice-President Literary and Debating Society in 1933. Hobby: Swimming. Pet aversion: Catching trains. Favourite expression: Let's hear about it.

## LUKE,

### KATHERINE EMSLEY

Life began Aug. 21, 1911 at Westmount, P.Q. Migrated to Oshawa, Ont. Educated at Oshawa Collegiate Institute. Activities: Basketball '31-'32, Class President '31-'33, House Ctee. President '33. Nickname: "Cass." Pet aversion: Macaroni and cheese. Hobby: Daily dozens. Favourite saying: Aw, Kids! Ambition: To make a million.

## MACDOUGALL,

### KATHERINE AGNES ETHEL

It happened August 23, 1912, in Ottawa. Educated at the Glebe Collegiate Institute, Ont. Activities: Basketball '31-'32, Baseball manager '32-'33, House Committee treasurer '31-'32, Science debating team '31-'32. Nickname: "Kal." Pet aversion: Dignity. Hobby: Writing letters. Favourite saying: Make up your minds. Ambition: a seven day week-end.

## OLMSTEAD,

### HELEN GERTRUDE

Came, saw, conquered Perth, N.B., April 10, 1911. Educated at Andover High School and Dalhousie University. Activities: Science debating team '31-'32, Pres. House Ctee. '32. Nickname: "Umpie." Pet aversion: Country dancing with Walkem. Hobby: "Hooey." Favourite saying: Up and at 'em! Ambition: Hughie.

## POWER,

### ELSIE MAY

First smiled on Brockville, Ont., April 2, 1911. Educated at Brockville Collegiate Institute. Activities: Basketball '31-'32, Badminton manager '31-'32, Class secretary '31-'33, House Ctee. '33. Nickname: "Will Power." Pet aversion: "Mud puddles." Hobby: R.C.M.P. Favourite saying: I could scream! Ambition: Little "Grey" Home (in the West).

## SENIOR ADMINISTRATORS

## MORROW,

### MILDRED IRENE

Born July 15, 1913, in Bury, P.Q. Later moved to Cookshire, P.Q. Educated at Cookshire High School. Nickname: "Millie." Pet aversion: Work. Hobby: Singing (Rain or not). Ambition: England—and the Dip. Favourite saying: I haven't the foggiest.

## WALKEM,

### JEAN ALEXENDRA

First stormed into Vancouver, B.C., Feb. 19, 1913. Educated at West Heath, Eng., and Magee High School, Vancouver. Activities: Dramatics. Nickname: "Jeannie A." Pet aversion: Country dancing with Olmstead. Hobby: Launching attacks. Favourite saying: Would you be too revolted if—? Ambition: 60% and the "Civic."

## WETMORE,

### ELSIE ANDERSON

First opened her mouth at Central Blissville, N.B. Moved to Campbellton. Educated at Campbellton High School. Activities: Students' Council '32-'33, Pres. House Ctee. '33, Athletic reporter '32-'33. Nickname: "Smoothie." Pet aversion: Grey flannels—especially "half masters." Hobby: The Bushes at the Bottom of the Garden. Favourite saying: We owe it to ourselves. Ambition: To be a smoothie.

## MUNDY,

### NORAH KATHLEEN

Blew into Oshawa, Ontario, Feb. 21, 1912. Educated at Oshawa Collegiate Institute. Activities: Basketball '31-'32, Athletic Assn. Treas. '31-'32, House Ctee. '31-'33, Class Reporter (Star) '32-'33. Nickname: "Capone." Pet aversion: Saturday night hops. Hobby: Laughing and chewing gum. Favourite saying: What a racket! Ambition: To meet Mr. Wrigley.

## THE MACDONALD COLLEGE RUGBY TEAM

Captain..... J. R. MACDONALD

Manager..... W. B. CLEMENTS

**A**NOTHER year past and still the Woods Trophy stays in town! The height of our ambition at Macdonald, so far as Rugby is concerned, is to reach first place in the Interfaculty League, but the Fates seem intent on leaving us with an ideal still to work for.

In so far as winning games is concerned the past season was not successful, but that worries us but little, for all the team members played the game just for the game's sake and had lots of fun doing it. Playing against heavy odds, as we invariably do, just adds a little more zest to the game. Taking defeat with grace and humility is ranked as a virtue, so that at the season's end we can at least claim virtue's reward.

Organising a team from among our small Student Body was more than usually difficult this year, owing to the energies of the Soccer and English Rugger squads which considerably depleted the Canadian side. However, new men settled down

to learn a new game or new position with commendable spirit and vigour, so that our extremely light squad became characterised by neat team work rather than brilliant individual play.

A football "write-up" is incomplete without mention of Frank Sharpe, our persevering coach. I'm sure he neared despondency a number of times, though we're told he reached the climax of his life when Medicine had to lower their flag to the boys in green and gold. It's rather pointless to mention how hard Frank worked with the team, because his characteristic energy is well known everywhere. The daily gridiron grinds under his stern eye certainly kept his team in great physical condition, which, according to Frank, was their most reliable weapon. We wish him better luck in the coming season and hope for new players, for most of the few remaining "old-hands" will be cursing their luck for being through College.

Best of luck, Frank! We'll win that Interfaculty Rugby Championship yet!

HUDSTON    SHEWELL    HARVEY    MARSHALL    SWANN    POPE    WATERFIELD    PRICE    HALL    ARNOTT

SAVILLE    CLARK

## THE MACDONALD COLLEGE ENGLISH RUGBY TEAM

**F**OR the first time in the history of the club a team was entered for the MacTier Cup competition. This was an ambitious effort on the part of a young organisation, but the results achieved fully justified the attempt. We were defeated in four of the five games played, but a careful analysis of the results will show a steady improvement in a programme of matches with teams that had started the season at least three weeks before our first match. Our victory against the McGill XV., in a game which was closely contested from start to finish, marked a definite step in the forward progress of the club. This was followed by a win over Toronto Varsity, who were our guests after their visit to McGill in Montreal.

We were represented in the interprovincial match between Quebec and Ontario by Cameron and Price, who played on the Quebec team. Their hard work in the pack largely contributed towards the victory of their team.

We sincerely hope that the proposed entrance of Queen's University into the English rugby field will

facilitate the formation of an intercollegiate league, consisting of McGill, Varsity, Queen's and ourselves.

With the Spring weather proving favourable the Rugger squad were successful in two games played at the end of the final term. While admitting that the Macdonald team was probably in better physical condition than their opponents there can be little doubt that one factor was well substantiated. When the team enters into competition in the Fall it encounters oppositions that have been playing for over a month and are consequently in better fettle than itself, and this adverse element can be overcome only by the individual members of the team training hard before returning to College. If we can beat Westward (admittedly weaker than in the Fall) by 37-0 after losing 3-0 in the McTier Cup, and vanquish the Bank of Montreal 29-3 after earlier losing 8-0, then we can do the same in the competition proper if we realize the necessity of being fitter than we are in the Fall.

## THE MACDONALD COLLEGE ASSOCIATION FOOTBALL TEAM

Captain.....C. B. TAYLOR

Manager.....ROBERT FLOOD

**D**ESPITE the short season and the diversity of sports played about the campus, the past year was undoubtedly the best the Macdonald soccer team has ever enjoyed. Three Macdonald men made the McGill first team, which, although being a high honour for the college, depleted the team for their friendly matches but introduced new players to the game. Our old friends Theology went down on the bad side of 4-2, the College Employees suffered a defeat of 2-0 and Ste-Anne's were swamped by 9-1.

To avoid unnecessary expense, Macdonald were held to be the defending faculty champions and were excused the eliminating rounds, and had to meet Arts, the winners, in a sudden death game at Ste-Anne's. The game, which was the best of the season, showed some remarkably fast and clean football, and the much maligned and so-called farmers thoroughly deserved to retain the championship by a suitable majority of 5-2.

Interclass soccer has been revived, and for the first time in many years the classes played off for the Boving Cup, which was won by the Sophomores with comparative ease. Although most of the games were decidedly scrappy they provided much enthusiasm and competition and were the means of discovering new talent. The future of soccer at the college is very much in the lap of the gods, for good players, as our worthy Mr. Finlay realises, are hard to come by. It is hoped that the good start which soccer has made will be continued by those players remaining, and that Macdonald will continue to contribute its quota to the McGill first eleven.

In conclusion we would thank the Executive and Women's Athletic Committees for allowing us the use of the Girls' campus for our games. Without this co-operation it would be impossible for the three brands of Autumn sports to arrange such ambitious programmes.

If soccer continues to flourish as it has done this season there need be no qualms for the future.

## HOCKEY

**G**RADUATIONS claim many "old reliable." We expect that, and, being ever hopeful, we also expect to find new material in incoming students. Our expectations were well fulfilled this season. The hockey squad was composed of nearly all new men. Many of these newcomers were drawn from the class of Teachers, so that, unfortunately, they will not be back with us next year. It was gratifying to see a good number of men turn out from the first years of the Degree and Diploma courses. To these men we look to carry on our hockey at the College for the next few years.

The hockey season, on the whole, was not ideal. It did not get started until late in January and closed early in March. However, despite adverse weather conditions, we were able to play a number of interesting and enjoyable, if not very successful, games. Exhibitions with local clubs formed the bulk of our programme, and their teams were definitely our superiors. But it was well worth our while to play with teams of such calibre.

According to what has now become custom, we journeyed to Hudson Hights to meet its team, and St. Annes gave us two games on our own ice. A trip to Senneville produced a hard, fast game in which the home team was victorious.

As usual, we entered the McGill Interfaculty Hockey League. This entry was in no way a success; for we made several trips to Montreal only to have the game defaulted by the other team, or to find snow on the ice. Two Interfaculty games were played here: one with Arts, which we won, and the other with Engineering who beat us. The final count in the Interfaculty League found us runners up to the Engineers for the top place.

The McGill Intermediate and Junior hockey teams each claimed a man from Macdonald this year. Our congratulations go to Pearson and Lamb on their selection to represent the University.

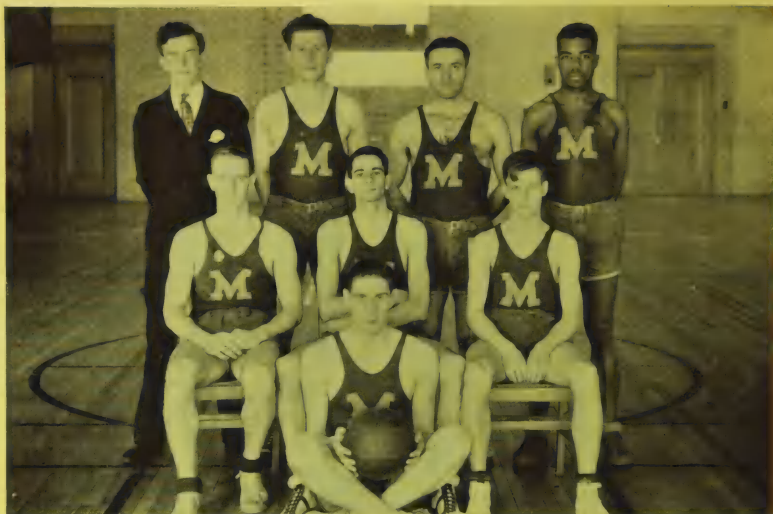

To those members of the team who are leaving and not returning we wish good luck. With those who will be with us again next year we leave the future of hockey at Macdonald.

## THE MACDONALD COLLEGE BASKETBALL TEAM

Captain.....S. FINDLAY

**B**ASKETBALL, as a college sport, has certainly become popular at Macdonald this year. It has thrived as never before—two squads entered the Intermediate Section of the Montreal Basketball League and produced a brand of basketball that proved superior on occasion to that of the more experienced teams of the city, and which eventually brought the Inter-faculty Championship to Macdonald.

The Greens, who are the Mac. team of 1931-32, are entered in the intermediate B Section and are a vastly improved squad due to the experience gained this year. This team played twenty-one games itself and are now certainly showing the beneficent effects of the full schedule.

Due to the fact that several of the regular team will be lost this year through graduation, it was decided to enter a second team in the M.B.L. in order to build up a squad for the future. The Golds

Manager.....W. B. CLEMENTS

were thus formed and entered in the Junior Section. Due to the age of certain players they were transferred to the Intermediate Section C and did very well considering their own experience and the class of players that they met.

Frank L. Sharpe spent another season with us as Coach and managed to develop two good teams out of the material at hand. In the past three years he has seen to it that Macdonald made rapid strides in Montreal Basketball circles and has handled a difficult position well.

With the amount of basketball played around this College excellent players are bound to develop, and the future teams should be well up among the leaders in the leagues of Montreal.

Altogether, although we did not win so very many games, we have passed a most enjoyable season. Due to a foresighted policy the prospects for the future look brighter than ever before.

## WOMEN'S BASKETBALL

**T**HIS season the basketball programme was altered. On Miss Heathcote's advice, the Macdonald Girls' Team dropped out of the City League to which it has formerly belonged, and played instead a number of challenge games.

Early in the season the Old Girls journeyed to Mac and were beaten by the Mac team by a score of 55-11. The Old Girls played a return game on March 1st, and were again beaten (34-6).

During the season, the inter-section games were played off in the form of a tournament with a consolation tournament as well. The finals were reached on Feb. 9, when the Homemakers defeated the Junior Ads. by a very close margin, 16-14. In the consolation finals B.H.S. '35 defeated Sec. A 16-11. Year '35 are to be congratulated both for winning and for being the only one of the four senior classes to enter a team in the tournament. The Homemakers this year are therefore the winners of the Basketball trophy.

On Jan. 20th, The Macdonald Teachers Team played the visiting Verdun team and were victorious by 32-21.

On Feb. 20th, the annual Teachers-Science game was played. The game was very close and was characterized by poor shooting on the Science team who missed many chances to lose the game 20-24. On March 23rd, the Teachers met the

Science again in the final game of the season. This was played in the men's gym which the team found to be much "easier" than their own. The Science were victorious by a score 31-19. Unfortunately there were two players hurt, but this game was considered by the spectators to be the best of the year.

On February 18th, Arts '34 at McGill challenged the Mac team and a very fast and evenly matched game was played at R.V.C. McGill won 44-30.

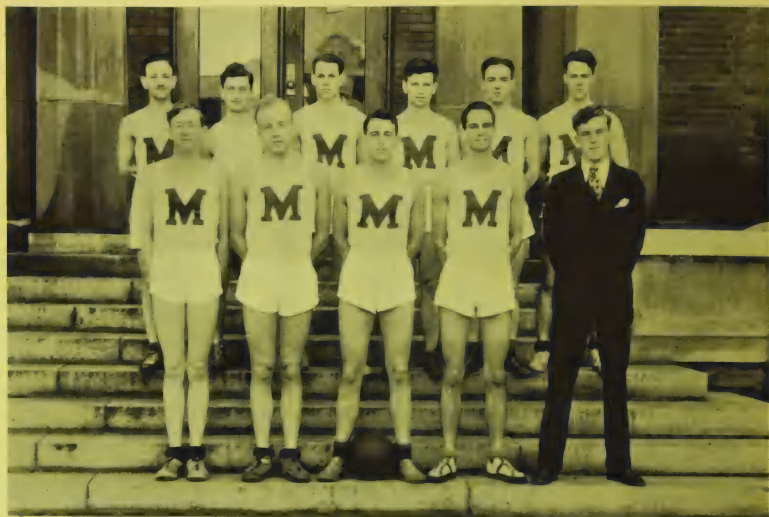

The girls representing the Macdonald team this year were:

Forward.....	B. WHALLEY
Forward.....	P. PAYNE
Shot Centre.....	L. MOODIE
Jump Centre.....	K. YOUNG
Defence.....	D. SEAMAN
Defence.....	H. BROWN

For the amount of time spent in practicing, the players turned in very fine games.

### SCHEDULE OF GAMES

Mac beat Old Girls.....	55-11
Mac Teachers beat Verdun.....	32-21
Homemakers beat Jr. Ads. (Finals).....	16-14
B.H.S. II beat Sec. A (Finals).....	16-11
Arts '34 beat Mac.....	44-30
Teachers beat Science.....	24-20
Science beat Teachers.....	31-19

## GOLD'S BASKETBALL

**T**AKING into consideration the array of players in residence at the beginning of the year it was considered that, with so many men of team standard available, two teams should be run. The initial intention was to have one team entered in the Intermediate League and the other in the Junior, but age difficulties obviated this. Finally the adventurous suggestion was offered that we should run two intermediate squads. The play of the Golds as the season progressed amply vindicated their sponsors.

Starting a trifle shakily, which was understandable considering the comparative inexperience of the players, the Golds soon settled down into a very workmanlike team. Perhaps their happiest memory was when they defeated the Greens in their first trial of strength and showed what a young and determined team can do to rattle a more experienced aggregation. In the League itself they offered stout opposition to all teams and, even if their results away from home were at times a shade disappointing, they served up some excellent displays on the Mac floor. They seemed to be a team of two

periods, and on many occasions the change over at half-way also showed a change in play. This can be explained principally on the score of inexperience. As the season progressed, however, the players gradually settled down and some of their floor-work was exceptionally well executed. Just a little luck plus that much-needed experience would have turned the scale on several occasions; but at all times the team showed a fighting spirit.

The chief value of the Golds in College Basketball will undoubtedly be seen in future years. The players in the majority of cases are young, and in their first two years at Mac. They should move up to fill the vacancies which occur in the Greens team well equipped to maintain the standard that that team has set for itself.

### THE TEAM

*Guards:* WILLIAMS, BOVELL (*Captain*), ADAMSON, and SNILNER.

*Forwards:* INNIS, MACDONALD, WEXELBAUM, JACK, HUMPHREYS and MARIASINE.

## THE TRACK AND WRESTLING AND BOXING CLUBS

**T**HE track meet was held in fine weather and the Teachers won the inter-class aggregate with first in the 100 yards and 220 (Brown), first in the high jump (Pope), and first in the half mile relay—the time for the latter being a record for the college.

The cup for the highest individual aggregate was tied for by Finn and Peck. The former won the 440 and 880 yards, and the latter the mile and two miles. Smythe obtained first place in the throwing the cricket ball, thus winning the Barton Trophy for the highest score in the freshman year. The other first places went to Lamb, who won the broad jump and hurdles and Findlay won the shot-put.

In the inter-collegiate intermediate meet held at McGill, the Macdonald College representatives scored 24 out of McGill's 64 points. Peck won the mile and was third in the three miles, Finn won the 880, while Clapp and Lamb took first and second places in the broad jump. Brown came second in the low hurdles. Spectators will not forget for a long time Finn's finish of the medley relay.

Peck was chosen later for the Harrier team in the intercollegiate meet at Kingston. He came in thirteenth with a badly strained ankle. Finn ran in the Montreal Road Race, and placed 9th.

From the list of placings it will be seen that the Macdonald College representatives have more than upheld the traditions of the past. We trust that this is no flash in the pan—not the efforts of a few individuals—but representing the true spirit of endeavour.

This year the Boxing and Wrestling Club held two smokers—the first before Christmas. This was in preparation for the McGill Assault-at-Arms. Payton, Hall and Jankov were on the wrestling team. Payton won his bout, but the other two lost after very close fights. Payton and Jankov were chosen for the McGill team that visited the States. In the boxing, Waterfield qualified for the final, but was defeated after a close fight.

The activities of these various clubs represent the individual efforts of students here. They are dependent for their training on their own individual efforts and, judging by results, they compare quite favourably with the more organised forms of sports to be found among us.

## THE COLLEGE ORCHESTRA

Conductor: R. H. W. STEVENS

EVERYTHING comes to him who waits! Well, ever since the days of Dip. '29 Macdonald has expectantly awaited the development of a College dance orchestra. In this interval, murmurs of discontent had made ready openings for the conversationalists, but, as usual, the initiative has been left to others. However, Bob Stevens, as Chairman of the Entertainment Committee, has produced an orchestra which has furnished us with an excellent programme of College dances.

The Student Body is deeply indebted to the persevering Robert, who, on entirely his own initiative, combed both residences for those talented in his beloved "jazz." This particularly busy Senior and hard worker at our dramatic productions is deserving of more than ordinary thanks for the time given us in organizing, obtaining music, encouraging practices, helpfully criticising and finally conducting the orchestra.

The talent, hard work and generous sacrifice of time by the individual artists is equally appreciated. Only by being imbued with great keenness could they have practised so ardently and generously dispensed us rhythm throughout the year. We can imagine their tense excitement on making their debut before the "Saturday Night Hop" crowd, facing most critical attention and wondering what

would be the tone of resultant comment. However, hearty applause then and at every other appearance has best indicated the orchestra's reception, while a *Failt-ye Times* notice that "Stevens and his orchestra" will be in attendance at the next dance invariably assures a big crowd.

We ought especially to be grateful to Margaret Chubb and Mr. Walsh for the excellence of their contributions on piano and violin, respectively, and for their great help in the transposition and arrangement of music for the saxophones.

Mr. Stevens graduates this year, but the College orchestra is to remain an institution, Mr. Walsh, fortunately for us now in his first year, bearing the onus of direction in the future.

We wish Mr. Walsh the best of success in undertaking a task which adds much to the social congeniality of the College, and we extend heartiest thanks to "Stevens and his band."

The orchestra and accomplices during 1932-33 were as follows:-

Mr. R. H. W. Stevens, *Conductor*; Margaret Chubb, *Mary Beddoe*, Mr. C. McKaw, *Piano*; Mr. Herb. Jordan, *Traps*; Mr. Walsh, *Violin and Banjo*; Mr. Haslam, *1st Saxophone*; Mr. Pearson, *2nd Saxophone*; Ruth Moore, *Soloist*; Mary Beddoe, Kay Read, Ruth Moore, "*The Sunshine Girls*."

*in Its Course* . . .

In times of expansion or depression, Canadians have learned to rely upon the unwavering safety and helpful service of the Bank of Montreal.

Older than the Dominion itself, yet young as the latest sound business enterprise of Canada, this Bank keeps strong and efficient by pursuing its traditional policy of banking practice consistent with safety for depositors, and by adjustment of its services to the demands of modern business.

## Doesn't Color the LACE!

The charm of lace-trimmed silk finery lies in the contrast of dainty white or ecru lace against the delicate pastel-tinted silk. And Tintex (in the Blue Box) helps you to keep this charm, even after repeated laundering. For, in the rinsing, Tintex tints the silk but leaves the lace its original color.

*For all other tinting and dyeing use  
Tintex in the Gray Box.*

# MACDONALD COLLEGE

(McGill University)

## School of Agriculture

**THE DIPLOMA COURSE**—of two winters' duration (November to March) arranged for the convenience of farm boys—eminently practical—comparatively inexpensive.

**THE DEGREE COURSE (B. S. A.)**—extending over four years. A sound scientific course and an all round education, with opportunity to specialize in the various branches of agriculture represented in the profession and in farm practice.

**GRADUATE COURSES (M.Sc., Ph.D.)**—advanced training for scientific workers. Specialist courses in Agronomy, Animal Nutrition and Breeding, Bacteriology, Chemistry, Entomology, Horticulture, Parasitology and Plant Pathology.

All Quebec diploma and B.S.A. students in Agriculture receive a grant from the Provincial Government of \$9.00 per month of attendance to apply on account of board and lodging.

*Application for Admission to be Made to The Registrar,  
Macdonald College, Que.*

## School of Household Science

**SHORT COURSES**—beginning in September, January and March. A very practical course.

**HOMEMAKER COURSE, ONE YEAR**—beginning in September or January for young women 17 years and upwards.

**INSTITUTION ADMINISTRATION COURSE: TWO YEAR**—leading to a diploma. A thorough course in institutional work. Entrance requirements Grade XI and 20 years of age.

**DEGREE COURSE (B.H.S.)**—extending over four years and training for professional life.

Tuition is free in the first three courses for daughters of farmers of the province of Quebec, and the Provincial Government grants a bursary in the one and two year courses ranging from \$20.00 to \$50.00.

*Application for Admission to be Made to The Registrar,  
Macdonald College, Que.*

## School for Teachers

The School for Teachers gives a thorough training to those intending to teach in the Protestant schools of the Province.

Tuition free, and bursaries of \$50.00 to \$100.00 each given to those students of the intermediate and kindergarten classes and \$50.00 each to those of the elementary class who promise to teach three years in an elementary rural school.

*Application for Admission to be Made to Dr. W. P. Percival,  
Department of Education, Quebec.*

Cost of BOARD and LODGING for all Courses: MEN \$7.50 per week; WOMEN \$7.00 per week

### Since 1869

THE Royal Bank of Canada is typical of Canadian progress. Starting as a small local bank in Halifax, it has moved steadily forward through the various booms and depressions of the past 64 years. In enterprise, experience and established strength, The Royal has long been recognized as one of the great banking institutions of the world.
